

We move people

Press Release RideOnTrack

Geel, Belgium – June 4, 2012

RideOnTrack moves into new offices

RideOnTrack is pleased to announce it has established its new offices at the Innotek innovation centre in Geel, Belgium

At RideOnTrack we consider ourselves technology front runners.

In order to become part of the innovative initiatives sponsored by the Belgian government, we have decided to move our company in the Technology House in Geel, the heart of the Flemish innovation community.

The Technology House offers the flexibility RideOnTrack requires in terms of office space, lab facilities and test environment as well as all other infrastructure needed to serve our customers. The Technology House is home to many companies that consider technological innovation as the key differentiator of their business and RideOnTrack is proud to become part of this community.

About RideOnTrack

RideOnTrack is a company specialized in delivering state-of-the-art communication solutions for mission critical networks. RideOnTrack can also deliver a wide range of (telecommunication) consultancy services. RideOnTrack has developed its own software platform, supported by software development tools and software/system testing tools, which results in drastically reduced software design cycles while maintaining the highest quality standards. RideOnTrack differentiates because their set-up, experience and development environment allows to address specific customer needs in a niche market environment. IpMatix_Rail is RideOnTrack's software solution suite for EIRENE compliant dispatcher applications for Rail Operators.

RideOnTrack bvba is a privately held company under Belgian law.
